DETAILED ACTION

Allowable Subject Matter

Claims 1-3 and 8 are allowed.

The following is an examiner's statement of reasons for allowance:

None of the prior art, either singularly or in combination, fairly teaches or suggests applicant's claimed invention wherein applicant recites "determining the output string by finding an approximate match between the modified string and a known string in a directory of known strings by computing respective edit distances between the modified string and a plurality of the known strings based on respective costs of edit operations involving the extension character code, and selecting the one of the known strings responsively to the respective edit distances, wherein a cost of zero is assigned to a transformation of the respective extension character code associated with each of the sequences to the respective original character code."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
